

June 29, 2023

Dear Parents,

Welcome to the CCS Preschool program! I would like to introduce (or reintroduce) you to Portfolio Assessment. This is an in-depth way of monitoring your child's development. The assessment focuses on what your child will accomplish and continue to learn in the Central Christian Preschool classroom. Your child's teacher will contact you to schedule his or her assessment. This initial assessment will be the foundation of the portfolio folder your child will build during the school year. Then, throughout the year we will be collecting samples of your child's work.

Information is gathered about how your child is learning, growing, and changing. Examples include coloring, writing and recognizing colors, shapes, numbers, letters and sounds. Art work will also be added to their folder. As the school year progresses, we will collect many samples of different areas of learning in order to assess your child's progress. This method of assessment will show your child's growth over time in a classroom setting.

Finally, the Portfolio Assessment helps your child's teacher plan instruction and meet your child's individual learning needs.

I welcome your questions and comments.

Sincerely,
Mrs. Shirley
Preschool Supervisor
